Subject: 2007--2008 Secondary Road Construction Program

Dear Gentlemen:

As required by General Statute 136-44.5, before July 1 each calendar year, the Department of Transportation shall make a study of all state maintained unpaved roads in order to determine the unpaved mileage in each county and the total in the state. Each county's allocation is determined by dividing the total allocation by the statewide mileage times the number of miles in each county.

Secondary road construction allocations are based upon the amount of revenue generated by the gasoline tax. The final total was determined at the end of the last fiscal year, ending June 30, 2007 taking into consideration the number of unpaved miles remaining in Pender County (30.39 miles). Should there be a significant change in the county allocation, we will inform you of any adjustment in the Secondary Road Construction Program for 2007 - 2008.

For the 2007/2008 secondary allocation, the funding formula has been adjusted due to HB 750. Under this bill, funding is separated into three categories: highway fund (standard), trust fund (standard), and highway fund (paved road improvements). For each section, a separate funding formula is used. The net result of these changes cause some counties to lose secondary road construction funds while others received gains. As a result, the Board of Transportation approved a total funding of \$ 944,650 for this fiscal year.

A copy of this proposed program is posted on a map at the Pender County Courthouse for public review. This program is subject to availability of funding, right of way, and environmental review.

We wish to point out the amount used in the cost of each of these priorities is an estimate and is subject to variations due to inflation, cost of materials, equipment rate changes, and so forth.

We appreciate the opportunity to meet with you, the Board, and the public, to present this program. Recommended deviations from this submission by the Board of Commissioners must be in compliance with General Statute 136-44.8.

In the event the right of way for any of the proposals above is not available, it is our plan to proceed with the next priority until right of way is acquired and funds are expended. You will be notified of changes in this program. In addition, at the end of each calendar year you will be presented a detailed report of work accomplished and funds expended.

Very truly yours,

Larry T. Wilson
Member, Board of Transportation
