- For Service(s)
- Intergovernmental – County as Grantee
 - Federal Grantor
 - State Grantor
 - Grant or
- County as Grantor
 - County Funds
 - Other Funds:
- Revision
- For Equipment

The current cost estimate to complete the extension of approximately 6,285 linear feet of water distribution main and other associated appurtenances along Factory Road, Broadview Lane, and Howards Channel Drive is \$157,125. There are approximately 47 individually owned properties that could be serviced by completing the remaining Factory Road portion of the original design. In addition, there are approximately 122 mobile homes within 2 mobile home parks that front Factory Road and Howards Channel Drive. A Bulk "Master" Water Meter could be provided for each of the parks, and the extension of water distribution mains and service lines to serve the individual mobile homes on private property would be the responsibility of the mobile home park owners. There are currently 9 sign ups on record for the remaining section of Factory Road, Broadview Lane, and Howards Channel Drive.
