

REQUEST FOR BOARD ACTION

ITEM NO. 29.

DATE OF MEETING: October 21, 2013

REQUESTED BY: Kyle M. Breuer, Director, Planning & Community Development

SHORT TITLE: Request to Rezone One Tract from PD, Planned Development to OI, Office & Institutional Zoning District.

BACKGROUND: Pender County applicant and owner, is requesting approval of a Zoning Map Amendment for a general use rezoning of one tract totaling 16.856 acres from PD, Planned Development District to OI, Office & Institutional District. The property is located on Transfer Station Road (SR 1695), Hampstead, off of US Highway 17, and may be identified by Pender County PIN 4203-17-8616-0000.

SPECIFIC ACTION REQUESTED: To hold a public hearing and consider the request to rezone a 16.856 acre tract from PD, Planned Development to OI, Office & Institutional zoning district.

RESOLUTION

NOW, THEREFORE, BE IT RESOLVED by the Pender County Board of Commissioners that:

on October 21, 2013 the Pender County Board of Commissioners (approved, modified, denied) a Zoning Map Amendment request, as described herein. The Chairman/County Manager is authorized to execute any/all documents necessary to implement this resolution.

PLANNING STAFF REPORT
Zoning Map Amendment

SUMMARY:

Hearing Date: October 15, 2013 – Planning Board
October 21, 2013 – Board of Commissioners
Application Number: 11031 – Pender County (ZMA)
Applicant: Pender County
Property Owner: Pender County

Rezoning Proposal: The request consists of a Zoning Map Amendment for a general use rezoning of one (1) tract from PD, Planned Development to OI, Office Institutional zoning district.

Property Record Numbers, Acreage, and Location: The property is located at 312 Transfer Station Road (S.R. 1695), Hampstead off the south side of US Highway 17, between Annandale Trace Lane and Leeward Lane. There is one (1) tract, totaling 16.586 acres, associated with this request, and the subject property may be identified by Pender County PIN 4203-17-8616-0000.

Policy Compliance: The request does not comply with the criteria set forth in Article 3.3.8 of the Unified Development Ordinance specifically Section 3.3.8.C:

Whether the proposed change is consistent with the County's Comprehensive Land Use Plan and CAMA Land Use Plan or any other adopted land use document.

The request is however, consistent with 3 policies the *2010 Comprehensive Land Use Plan* and conflicts with 2 items.

Planning Board Recommendation: On September 15, 2013 the Planning Board recommended denial of the request for a Zoning Map Amendment for a general use rezoning of one (1) tract from PD, Planned Development to OI, Office Institutional zoning district. Planning Board recommended the applicant, Pender County, submit a conditional rezoning application with conditions established to mitigate noise and other impact on properties nearby.

DESCRIPTION:

Pender County, applicant and owner, is requesting approval of a general use rezoning for one tract totaling 16.856 acres from PD, Planned Development to the OI, Office and Institutional zoning district.

The existing zoning in the surrounding area consists of PD, Planned Development. Prior to a comprehensive rezoning in November 2003 this parcel was zoned RA, Rural Agriculture. Currently, the 16.856 acre property houses the Pender Solid Waste Transfer Station.

Based on a preliminary analysis dated February 2012, the property does contain federal jurisdictional wetlands, subject to federal regulation. There are identified wetlands on the property (Attachment 1 & 2). Any development proposals for the property would require a survey of the property and additionally may require delineation by the Army Corps of Engineers to determine if wetlands are present.

The subject property is located within Zone X, areas outside of the 0.2 percent annual chance floodplain, according to the 2007 Flood Insurance Rate Maps (FIRMs) adopted February 16, 2007, Map Number 3720420300J, Panel Number 4203.

This property is bordered to the Northwest by two offices, to the Northeast by Master Development Plan referred to as Hawkbill Cove (Conditional Planning Board approval on October 2, 2012), to the East by undeveloped private land, to the South by single family residences on Annandale Trace, and to the West by a private cemetery.

Current activity on the site is operated by Pender County Utilities. The Solid Waste Transfer Station is a collection location for all incorporated and unincorporated municipal solid waste in Pender County, which then is transported to a landfill located in Sampson County. This operation is six days a week Monday through Sunday from 8am until 4:30pm. General public, private collectors and municipal collectors all frequent this site. Pender County Utilities anticipate this facility has the capacity to accept municipal solid waste, including growth for the next 15-20 years.

On November 15, 2010 the Board of Commissioners voted 4-0 to relocate the scales and associated scale house for the County's Transfer Station in coordination with the Hawkbill Cove Development Proposal (Attachment 3). This consent included ingress/egress to the transfer station solid waste facilities on a new location on the County's property and the future right of way connection in the current scale location. The re-location of the scales and associated scale house to re-align Transfer Station Rd. has not occurred to date.

The re-zoning of this property from PD, Planned Development to OI, Office and Institutional would allow for more conforming use of the property as currently there are no residential components. Solid waste collection is a permitted use in the OI, Office and Institutional zoning district and PD, Planned Development. However with no residential aspects anticipated for this site OI, Office and Institutional will allow for future expansion of Pender County Solid Waste operations on this tract.

The NC DOT anticipates the Hampstead Bypass Northern interchange will impact the current location of the Hampstead Convenience Center at 17585 US Highway 17 (PIN: 3293-98-7023-0000). As the planning process continues for the Hampstead Bypass, assessments must be made to determine the location best suited for the convenience center. There is a potential to move convenience center operations to the Transfer Station Rd. (subject) property; this would be possible with the re-zoning of this parcel to OI, Office and Institutional zoning classification.

The *2010 Comprehensive Land Use Plan* designates the subject property as conservation. According to the Comprehensive Land Use Plan, current conservation areas are typically owned

by Federal or State agencies or private conservation groups and are often designated as Areas of Environmental Concern (AECs). Currently, conservation areas comprise approximately 131,393 acres (24.7%) of the land area within the Pender County zoning jurisdiction. The *2010 Comprehensive Land Use Plan* details the conservation classification was established to protect the value of natural systems, especially land and water features. With this classification development of these properties is limited. The *2010 Comprehensive Land Use Plan* does not support up-zoning properties which are designated as conservation, such as the OI, Office and Institutional which would increase intensity beyond the current use of the property.

This is a general use rezoning which will encompass all uses permitted-by-right in the OI, Office and Institutional zoning district, as shown in the Permitted Use Table 5.2.3 of the *Pender County Unified Development Ordinance*. The OI zoning district is intended to provide for institutional and office areas for government, professional and medical purposes. This district is compatible with and supports adjacent residential and business uses and will allow multi-family residential uses above non-residential uses.

EVALUATION:

- A) Public Notifications:** Public Notice of the proposal for map change has been advertised in the *Pender-Topsail Post and Voice*. Adjacent property owners have been given written notice of the request, and a public notification sign has been placed on the property.
- B) Existing Zoning in Area:** The existing zoning in the vicinity of the subject property consists of the PD, Planned Development zoning district.
- C) Existing Land Use in Area:** The existing land uses of the surrounding property consist of a two offices to the North, to the East by undeveloped private land, to the South by single family residences on Annandale Trace, and to the West by a private cemetery. An OI, Office Institutional re-zoning of the subject property is compatible with the existing land uses in the area.
- D) 2010 Comprehensive Land Use Plan Compliance:** The 2010 Comprehensive Land Use Plan designates the subject property as conservation. This land use classification identifies areas that are owned in fee simple or have protective easements. These areas represent areas of special significance and unique characteristics that make them worthy of preservation. Current conservation areas are typically owned by Federal or State agencies or private conservation groups and are often designated as Areas of Environmental Concern (AECs). A re-zoning of this property to OI, Office Institutional is in direct conflict with the *2010 Comprehensive Land Use Plan* conservation designation of this tract.

The following goals and policies within this plan support the rezoning request:

- a) **Growth Management Policy 1A.1.2:** Encourage development in areas where the necessary infrastructure – roads, water, sewer, and schools - are available, planned or can be most cost effectively provided and extended to serve existing and future development.
Adequate infrastructure is currently located on property for the potential OI, Office Institutional use.

- b) **Solid Waste Management Goal 2F:1:** Ensure adequate capacity and proper management of solid waste, including reducing, reusing and recycling materials.
- c) **Solid Waste Management Policy 2F 1.4:** When siting collection centers, consider surrounding land uses traffic and aesthetics.

The following goals and policies within this plan may not support the rezoning request:

- a) **Growth Management Goal 1A.1:** Manage the physical growth and development of Pender County by promoting more intensive land uses in key locations identified for such growth while preserving and protecting the unique physical character and social assets of the predominant rural lifestyle and coastal environment that makes the County a unique place to live.
- b) **Growth Management Goal 1A.1.3:** The County shall actively direct growth towards suitable land areas and away from fragile natural resource areas, conservation areas, and hazardous areas.

E) Unified Development Ordinance Compliance: Article 3.3.8 of the Unified Development Ordinance provides for standards that shall be followed by the Planning Board before a favorable recommendation of approval for rezoning can be made. The proposed rezoning does not meet the standards of Article 3.3.8 of the Unified Development Ordinance. Specifically letter C does not comply, as there is a direct conflict with re-zoning a parcel identified as conservation in the *2010 Comprehensive Land Use Plan* to an OI, Office Institutional zoning district.

3.3.8 Review Criteria for Rezoning

The Planning Board and Board of Commissioners shall consider the following matters in considering a rezoning request:

- A. *Whether the range of uses permitted by the proposed change would be appropriate to the area concerned (including not being detrimental to the natural environment, not adversely affecting the health or safety of residents or workers in the area, not being detrimental to the use or development of adjacent property, and not materially or adversely affecting the character of the general neighborhood);*
- B. *Whether adequate public facilities/services (i.e., water, wastewater, roads) exist, are planned, or can be reasonably provided to serve the needs of any permitted uses likely to be constructed as a result of such change;*
- C. *Whether the proposed change is consistent with the County's Comprehensive Land Use Plan and CAMA Land Use Plan or any other adopted land use document.*
- D. *Whether the proposed amendment is reasonable as it relates to the public interest.*

G) Summary & Staff Recommendation: The proposal consists of rezoning a 16.856 acre tract from PD, Planned Development, to OI, Office Institutional. The request does not comply with the criteria set forth in the Unified Development specifically Section 3.3.8.C:

Whether the proposed change is consistent with the County's Comprehensive Land Use Plan and CAMA Land Use Plan or any other adopted land use document.

The request is also consistent with 3 policies *the 2010 Comprehensive Land Use Plan* and conflicts with 2 items.

Current conditions support a zoning map amendment. The proposed OI, Office and Institutional re-zoning is compatible with current land use on Transfer Station Rd. and the surrounding area. Additionally, the subject property's current use of the transfer station and associated scale house is consistent with the proposed OI, Office and Institutional zoning district.

Future development activity on the subject property is limited due to the land use classification as conservation from the *2010 Comprehensive Land Use Plan*. Development or expansion of services would not be permissible with the conservation land use classification. Due to the NC DOT's projection of the location for the Hampstead Bypass Northern interchange the current Hampstead Convenience Center at 17585 US Highway 17 (PIN: 3293-98-7023-0000) may require re-location to the subject property only permissible if the zoning classification category was OI, Office Institutional.

It is recommended staff carefully examine the conservation as a viable future land use classification for specific County owned property. Inconsistent amendments will only be approved for compelling reasons, and will result in a subsequent amendment to the *2010 Comprehensive Land Use Plan*. Staff will prepare a *2010 Comprehensive Land Use Plan* amendment to better address the actual and anticipated conditions of this site and surrounding areas. All adjoining land is classified as Mixed Use.

VOTING AND RESOLUTION:

Planning Board

On September 15, 2013 the Planning Board recommended denial of the request for a Zoning Map Amendment for a general use rezoning of one (1) tract from PD, Planned Development to OI, Office Institutional zoning district. Planning Board recommended the applicant, Pender County, submit a conditional rezoning application with conditions established to mitigate noise and other impact on properties nearby.

U.S.G.S. Quad: Topsail

NOTIFICATION OF JURISDICTIONAL DETERMINATION

Property Owner: Pender County Public Utilities
attn: Michael Mack
Address: P.O. Box 1047
Burgaw, NC 28425

Agent: Hampstead Properties, LLC
attn: Cynthia M. Roberts
Address: 4721 Emperor Boulevard, Suite 300
Durham, NC 27703

Property description:

Size (acres) 16.86

Nearest Waterway UT to Old Topsail Creek

USGS HUC 03020302

Nearest Town Hampstead

River Basin White Oak

Coordinates 34.690034 N -77.516326 W

Location description: The property is located at 248 Transfer Station Road, approximately 0.3 mi. south of its intersection with US 17, in Hampstead, Pender County, North Carolina. PIN: 4203-17-8616-0000.

Indicate Which of the Following Apply:

A. Preliminary Determination

Based on preliminary information, there may be wetlands on the above described property. We strongly suggest you have this property inspected to determine the extent of Department of the Army (DA) jurisdiction. To be considered final, a jurisdictional determination must be verified by the Corps. This preliminary determination is not an appealable action under the Regulatory Program Administrative Appeal Process (Reference 33 CFR Part 331).

B. Approved Determination

There are Navigable Waters of the United States within the above described property subject to the permit requirements of Section 10 of the Rivers and Harbors Act and Section 404 of the Clean Water Act. Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are wetlands on the above described property subject to the permit requirements of Section 404 of the Clean Water Act (CWA)(33 USC § 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

We strongly suggest you have the wetlands on your property delineated. Due to the size of your property and/or our present workload, the Corps may not be able to accomplish this wetland delineation in a timely manner. For a more timely delineation, you may wish to obtain a consultant. To be considered final, any delineation must be verified by the Corps.

The waters of the U.S. including wetlands on your property have been delineated and the delineation has been verified by the Corps. We strongly suggest you have this delineation surveyed. Upon completion, this survey should be reviewed and verified by the Corps. Once verified, this survey will provide an accurate depiction of all areas subject to CWA jurisdiction on your property which, provided there is no change in the law or our published regulations, may be relied upon for a period not to exceed five years.

The wetlands have been delineated and surveyed and are accurately depicted on the plat signed by the Corps Regulatory Official identified below on 11/1/2012. Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

There are no waters of the U.S., to include wetlands, present on the above described project area which are subject to the permit requirements of Section 404 of the Clean Water Act (33 USC 1344). Unless there is a change in the law or our published regulations, this determination may be relied upon for a period not to exceed five years from the date of this notification.

The property is located in one of the 20 Coastal Counties subject to regulation under the Coastal Area Management Act (CAMA). You should contact the Division of Coastal Management in Wilmington, NC, at (910) 395-3900 to determine their requirements.

Placement of dredged or fill material within waters of the US and/or wetlands without a Department of the Army permit may constitute a violation of Section 301 of the Clean Water Act (33 USC § 1311). If you have any questions regarding this determination and/or the Corps regulatory program, please contact Mr. David E. Bailey at (910) 251-4469 / David.E.Bailey2@usace.army.mil.

C. Basis For Determination

The site exhibits wetland criteria as defined in the 1987 Corps Wetland Delineation Manual and applicable Regional Supplements. The wetlands on-site are adjacent to an unnamed tributary (UT) to Old Topsail Creek, a Relatively Permanent Water (RPW) which flows into another UT to Old Topsail Creek (RPW) that becomes a Traditionally Navigable Water. This determination is based on a site verification by David E. Bailey of the U.S. Army Corps of Engineers on 2/1/2012.

D. Remarks

Wetlands and other Waters of the US on the subject property were delineated by Brent Ashley with changes made in the field by David E. Bailey (USACE)

E. Attention USDA Program Participants

This delineation/determination has been conducted to identify the limits of Corps' Clean Water Act jurisdiction for the particular site identified in this request. The delineation/determination may not be valid for the wetland conservation provisions of the Food Security Act of 1985. If you or your tenant are USDA Program participants, or anticipate participation in USDA programs, you should request a certified wetland determination from the local office of the Natural Resources Conservation Service, prior to starting work.

F. Appeals Information (This information applies only to approved jurisdictional determinations as indicated in B. above)

This correspondence constitutes an approved jurisdictional determination for the above described site. If you object to this determination, you may request an administrative appeal under Corps regulations at 33 CFR part 331. Enclosed you will find a Notification of Appeal Process (NAP) fact sheet and request for appeal (RFA) form. If you request to appeal this determination you must submit a completed RFA form to the following address:

US Army Corps of Engineers
South Atlantic Division
Attn: Jason Steele, Review Officer
60 Forsyth Street SW, Room 10M15
Atlanta, Georgia 30303-8801

In order for an RFA to be accepted by the Corps, the Corps must determine that it is complete, that it meets the criteria for appeal under 33 CFR part 331.5, and that it has been received by the District Office within 60 days of the date of the NAP. Should you decide to submit an RFA form, it must be received at the above address by December 31, 2012.

It is not necessary to submit an RFA form to the District Office if you do not object to the determination in this correspondence.

NOTIFICATION OF ADMINISTRATIVE APPEAL OPTIONS AND PROCESS AND REQUEST FOR APPEAL

Applicant: Pender County

File Number: SAW-2012-00291

Date: November 1, 2012

Attached is:

See Section below

<input type="checkbox"/>	INITIAL PROFFERED PERMIT (Standard Permit or Letter of permission)	A
<input type="checkbox"/>	PROFFERED PERMIT (Standard Permit or Letter of permission)	B
<input type="checkbox"/>	PERMIT DENIAL	C
<input checked="" type="checkbox"/>	APPROVED JURISDICTIONAL DETERMINATION	D
<input type="checkbox"/>	PRELIMINARY JURISDICTIONAL DETERMINATION	E

SECTION I - The following identifies your rights and options regarding an administrative appeal of the above decision. Additional information may be found at <http://www.usace.army.mil/inet/functions/cw/cecwo/reg> or Corps regulations at 33 CFR Part 331.

A: INITIAL PROFFERED PERMIT: You may accept or object to the permit.

- **ACCEPT:** If you received a Standard Permit, you may sign the permit document and return it to the district engineer for final authorization. If you received a Letter of Permission (LOP), you may accept the LOP and your work is authorized. Your signature on the Standard Permit or acceptance of the LOP means that you accept the permit in its entirety, and waive all rights to appeal the permit, including its terms and conditions, and approved jurisdictional determinations associated with the permit.
- **OBJECT:** If you object to the permit (Standard or LOP) because of certain terms and conditions therein, you may request that the permit be modified accordingly. You must complete Section II of this form and return the form to the district engineer. Your objections must be received by the district engineer within 60 days of the date of this notice, or you will forfeit your right to appeal the permit in the future. Upon receipt of your letter, the district engineer will evaluate your objections and may: (a) modify the permit to address all of your concerns, (b) modify the permit to address some of your objections, or (c) not modify the permit having determined that the permit should be issued as previously written. After evaluating your objections, the district engineer will send you a proffered permit for your reconsideration, as indicated in Section B below.

B: PROFFERED PERMIT: You may accept or appeal the permit

- **ACCEPT:** If you received a Standard Permit, you may sign the permit document and return it to the district engineer for final authorization. If you received a Letter of Permission (LOP), you may accept the LOP and your work is authorized. Your signature on the Standard Permit or acceptance of the LOP means that you accept the permit in its entirety, and waive all rights to appeal the permit, including its terms and conditions, and approved jurisdictional determinations associated with the permit.
- **APPEAL:** If you choose to decline the proffered permit (Standard or LOP) because of certain terms and conditions therein, you may appeal the declined permit under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the division engineer. This form must be received by the division engineer within 60 days of the date of this notice.

C: PERMIT DENIAL: You may appeal the denial of a permit under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the division engineer. This form must be received by the division engineer within 60 days of the date of this notice.

D: APPROVED JURISDICTIONAL DETERMINATION: You may accept or appeal the approved JD or provide new information.

- **ACCEPT:** You do not need to notify the Corps to accept an approved JD. Failure to notify the Corps within 60 days of the date of this notice, means that you accept the approved JD in its entirety, and waive all rights to appeal the approved JD.
- **APPEAL:** If you disagree with the approved JD, you may appeal the approved JD under the Corps of Engineers Administrative Appeal Process by completing Section II of this form and sending the form to the district engineer. This form must be received by the division engineer within 60 days of the date of this notice.

E: PRELIMINARY JURISDICTIONAL DETERMINATION: You do not need to respond to the Corps regarding the preliminary JD. The Preliminary JD is not appealable. If you wish, you may request an approved JD (which may be appealed), by contacting the Corps district for further instruction. Also you may provide new information for further consideration by the Corps to reevaluate the JD.

SECTION II - REQUEST FOR APPEAL or OBJECTIONS TO AN INITIAL PROFFERED PERMIT

REASONS FOR APPEAL OR OBJECTIONS: (Describe your reasons for appealing the decision or your objections to an initial proffered permit in clear concise statements. You may attach additional information to this form to clarify where your reasons or objections are addressed in the administrative record.)

ADDITIONAL INFORMATION: The appeal is limited to a review of the administrative record, the Corps memorandum for the record of the appeal conference or meeting, and any supplemental information that the review officer has determined is needed to clarify the administrative record. Neither the appellant nor the Corps may add new information or analyses to the record. However, you may provide additional information to clarify the location of information that is already in the administrative record.

POINT OF CONTACT FOR QUESTIONS OR INFORMATION:

If you have questions regarding this decision and/or the appeal process you may contact:

**District Engineer, Wilmington Regulatory Division,
attn: David E. Bailey, Regulatory Specialist
Wilmington Regulatory Field Office
69 Darlington Avenue
Wilmington, North Carolina 28403**

If you only have questions regarding the appeal process you may also contact:

**Mr. Jason Steele, Administrative Appeal Review Officer
CESAD-PDO
U.S. Army Corps of Engineers, South Atlantic Division
60 Forsyth Street, Room 10M15
Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

RIGHT OF ENTRY: Your signature below grants the right of entry to Corps of Engineers personnel, and any government consultants, to conduct investigations of the project site during the course of the appeal process. You will be provided a 15 day notice of any site investigation, and will have the opportunity to participate in all site investigations.

Signature of appellant or agent.	Date:	Telephone number:
----------------------------------	-------	-------------------

For appeals on Initial Proffered Permits send this form to:

District Engineer, Wilmington Regulatory Division, attn: David E. Bailey, Regulatory Specialist, 69 Darlington Avenue, Wilmington, North Carolina 28403

For Permit denials, Proffered Permits and approved Jurisdictional Determinations send this form to:

**Division Engineer, Commander, U.S. Army Engineer Division, South Atlantic, Attn: Mr. Jason Steele, Administrative Appeal Officer, CESAD-PDO, 60 Forsyth Street, Room 10M15, Atlanta, Georgia 30303-8801
Phone: (404) 562-5137**

REQUEST FOR BOARD ACTION

ITEM NO. 13.

DATE OF MEETING: November 15, 2010

REQUESTED BY: Kyle Breuer, Director, Department of Planning and Community Development

SHORT TITLE: Resolution Consenting to the Relocation of the Scales and Associated Scale House for the County's Transfer Station in Coordination with the Hawksbill Cove Development Proposal.

BACKGROUND: The developers of Hawksbill Cove, formerly known as St. George's Reach are proposing to extend Transfer Station Road (S.R. 1695) from US Hwy 17 southeast to Country Club Drive (S.R. 1565). The extension of Transfer Station Road is part of a revised Master Plan submission to the Pender County Planning Board which provides an extra ingress/egress point to the development which had to be moved from the previously proposed location. With this extension of the existing right of way, the County's transfer station scales and scale house will require relocation further southeast than the current location. Hawksbill Cove developers would like to receive the Board's consent for the general layout and access of a new site location for the scales and scale house, and new entrance/exit (see attached map). There will be no cost for the County or disruption of services for the relocation to take place. Also, there will be no transfer of County owned property to the developer and the construction will take place in the existing right of way of Transfer Station Road.

The consent of this request in advance of the proposed project plan does not imply the approval of the aforementioned plans or the Pender County Planning Boards review or approval.

The development team has conducted two (2) separate community meetings to discuss their proposal; these meetings were Thursday, November 4th and Friday, November 12th, 2010.

SPECIFIC ACTION REQUESTED: To consider a resolution consenting to the developer's proposal to relocate the transfer station solid waste facilities and ingress/egress to a new location on the County's property and that future right of way may be located within the current scale location.

COUNTY MANAGER'S RECOMMENDATION

Respectfully recommend approval.

Initial

RESOLUTION

NOW, THEREFORE BE IT RESOLVED by the Pender County Board of Commissioners that:

the Board does hereby consent to the relocation of the scales, associated scale house, and ingress/egress in connection with the County's transfer station in coordination with Hawksbill Cove development proposal to be undertaken at no cost to the County. The County Manager/Chairman are authorized to execute any/all documents necessary to implement this resolution.
