Mr. Kilroy began by congratulating the commissioners for doubling the population of Pender County in the past 15 years. Mr. Kilroy opened discussion by talking about the growth of Pender County and the different types of courts that are also held in Pender County. As an example, he talked about losing the roof in the Judicial Annex in September. At that time they were trying to find a place to have court and the idea of using the Board room came up. This proved the need for more space. Mr. Kilroy then introduced his delegates who were also present to say a few things on this topic.

Judge Cobb began by thanking the board for their time. He made a few comments regarding the need for more space at the courthouse while preserving it. After stating his comments he submitted a written copy of his statement which is incorporated by reference and hereby made a part of these minutes.

District Attorney Ben David then made a few comments. He stated, that it is not just the growth in Pender County that states a need for a larger courthouse, but the growth of the region as a whole. He used Interstate 40 as an example, and the commute that comes through Pender County on a daily basis. He also touched on some of the issues regarding the jail size and the fact that Pender County rents space from Onslow and the costs of using these outside facilities. He ended by stating that other counties have left their old courthouses for other judicial campuses. He recommended expanding the current courthouse and preserving it. At short term, Mr. David requested Pender County make sure the Basden Judicial Annex is safe, but for long term, he recommends that Pender County plans for expansion of the current courthouse.

Judge Corpening ended the presentation by making a few comments. He stated the security is a major issue today. He noted that times have changed. He asked that when Pender County chooses to make changes that security is a top priority. He then thanked the board for their time.

Mr. Kilroy ended by asking the Board of Commissioners to take \$5,000 per month of the court facilities fees for the next twelve months to total \$60,000, and have a study done as to where Pender County can go with expanding the courthouse. Mr. Williams commented that a seed has been planted. He agrees that the courthouse should stay downtown. Mr. Brown asked about the security issues that were commented on and whether we need to make security upgrades at the courthouse. The airport is transitioning from Classification Green to Classification Blue. This means the airport is going from general aviation to a business class

airport. He stated that the goal is to be a jet airport that will be able to bring industry to Pender County as well as be a HUB for Wilmington International Airport. Mr. Livingston stated that extending the runway which is required to reach these goals will be costly. The Town of Wallace has received 90% of the funding for this project by grant. He has asked that Pender County help by paying 5% which is \$270,000 noting that the Town of Wallace will pay the other 5%. Mr. Williams reiterated that the Wallace Airport is actually in Pender County and Pender receives some good tax base from this airport. Mr. Piepmeyer asked how large of a jet can be accommodated by extending the runway. Right now, the airport can handle a standard twelve passenger plane, but extending the runway will allow use of the airport for almost any corporate jet. Mr. Livingston stated that extending the runway will put this airport on the map as far as others being able to use it. Mr. McCoy stated that this will be important for industrial development in Pender County. Mr. Brown asked what percentage of the \$50,000 that was given last year was used for the capital projects. Mr. Livingston stated that all of Pender County's money is used for capital projects. Mr. Brown stated that he was also concerned regarding DOT's new rating system. Mr. Livingston assured that there was still money set aside for aviation projects. Mr. Williams suggested Navigational Aids as a future project idea. The Public Hearing opened at 7:50 p.m. Mr. Breuer explained: A Comprehensive Transportation Plan (CTP) is a long-range multi-modal transportation plan that identifies deficiencies and formulates recommendations to existing and future transportation networks. The development of this document was following a yearlong planning process involving numerous agencies and jurisdictions including the following: NC Department of Transportation, Cape Fear Rural Planning Organization, Pender Adult Services, The Nature Conservancy, and the Towns of Atkinson, Burgaw, St. Helena, Surf City, Topsail Beach, Wallace, and Watha. A kickoff meeting for Pender County's CTP was held on January 13, 2011, with the committee meeting monthly until April 2012 to make recommendations to the existing and future comprehensive transportation network for the study area. The Pender County Planning Board, on August 7, 2012 unanimously recommended approval of the Pender County Comprehensive Transportation Plan.

Due to circumstances outside of Pender County's control, the CTP was never adopted by the Board of Commissioners and has been delayed through the beginning of 2014. Overall, all policies and recommendations are consistent with the Board's initial recommendation, excluding

geographical boundary changes that have taken place since the initial review. These changes included the additional area within Pender County that has since been included within the Wilmington Metropolitan Planning Organizations jurisdiction. Also, areas included within the Topsail Area CTP (2011) were removed due to redundancy in that adopted plan. To accommodate these changes, an additional 30-day public comment period was opened and an open house was held to garner further comment. With these changes, Staff, along with the NCDOT and Cape Fear RPO, are respectfully requesting the Board of Commissioners adopt the Pender County CTP. The Planning Board, at their November 5, 2014 meeting, voted unanimously to recommend approval.

Mr. Serkin, Cape Fear RPO, spoke to the Board of Commissioners explaining those who were involved in the creation of this plan; DOT recommendations such as roads to be widened, bike trails to be added; NC 210 being realigned in Currie at Malpass Corner; public transportation; reactivation of rail line; improving and expanding bus routes; and adding some sidewalks. Ms. McCann, NCDOT Planning Branch, also added that this plan can be amended and updated at any time.

The Public Hearing closed at 8:02 p.m. Mr. Brown made a motion to approve authorizing the adoption of the Pender County Comprehensive Transportation Plan, Mr. McCoy seconded the motion and it was approved by a 4-0 vote.
