

REQUEST FOR BOARD ACTION

ITEM NO. 7

DATE OF MEETING: February 17, 2015

REQUESTED BY: Charles Newman, Fire Marshal

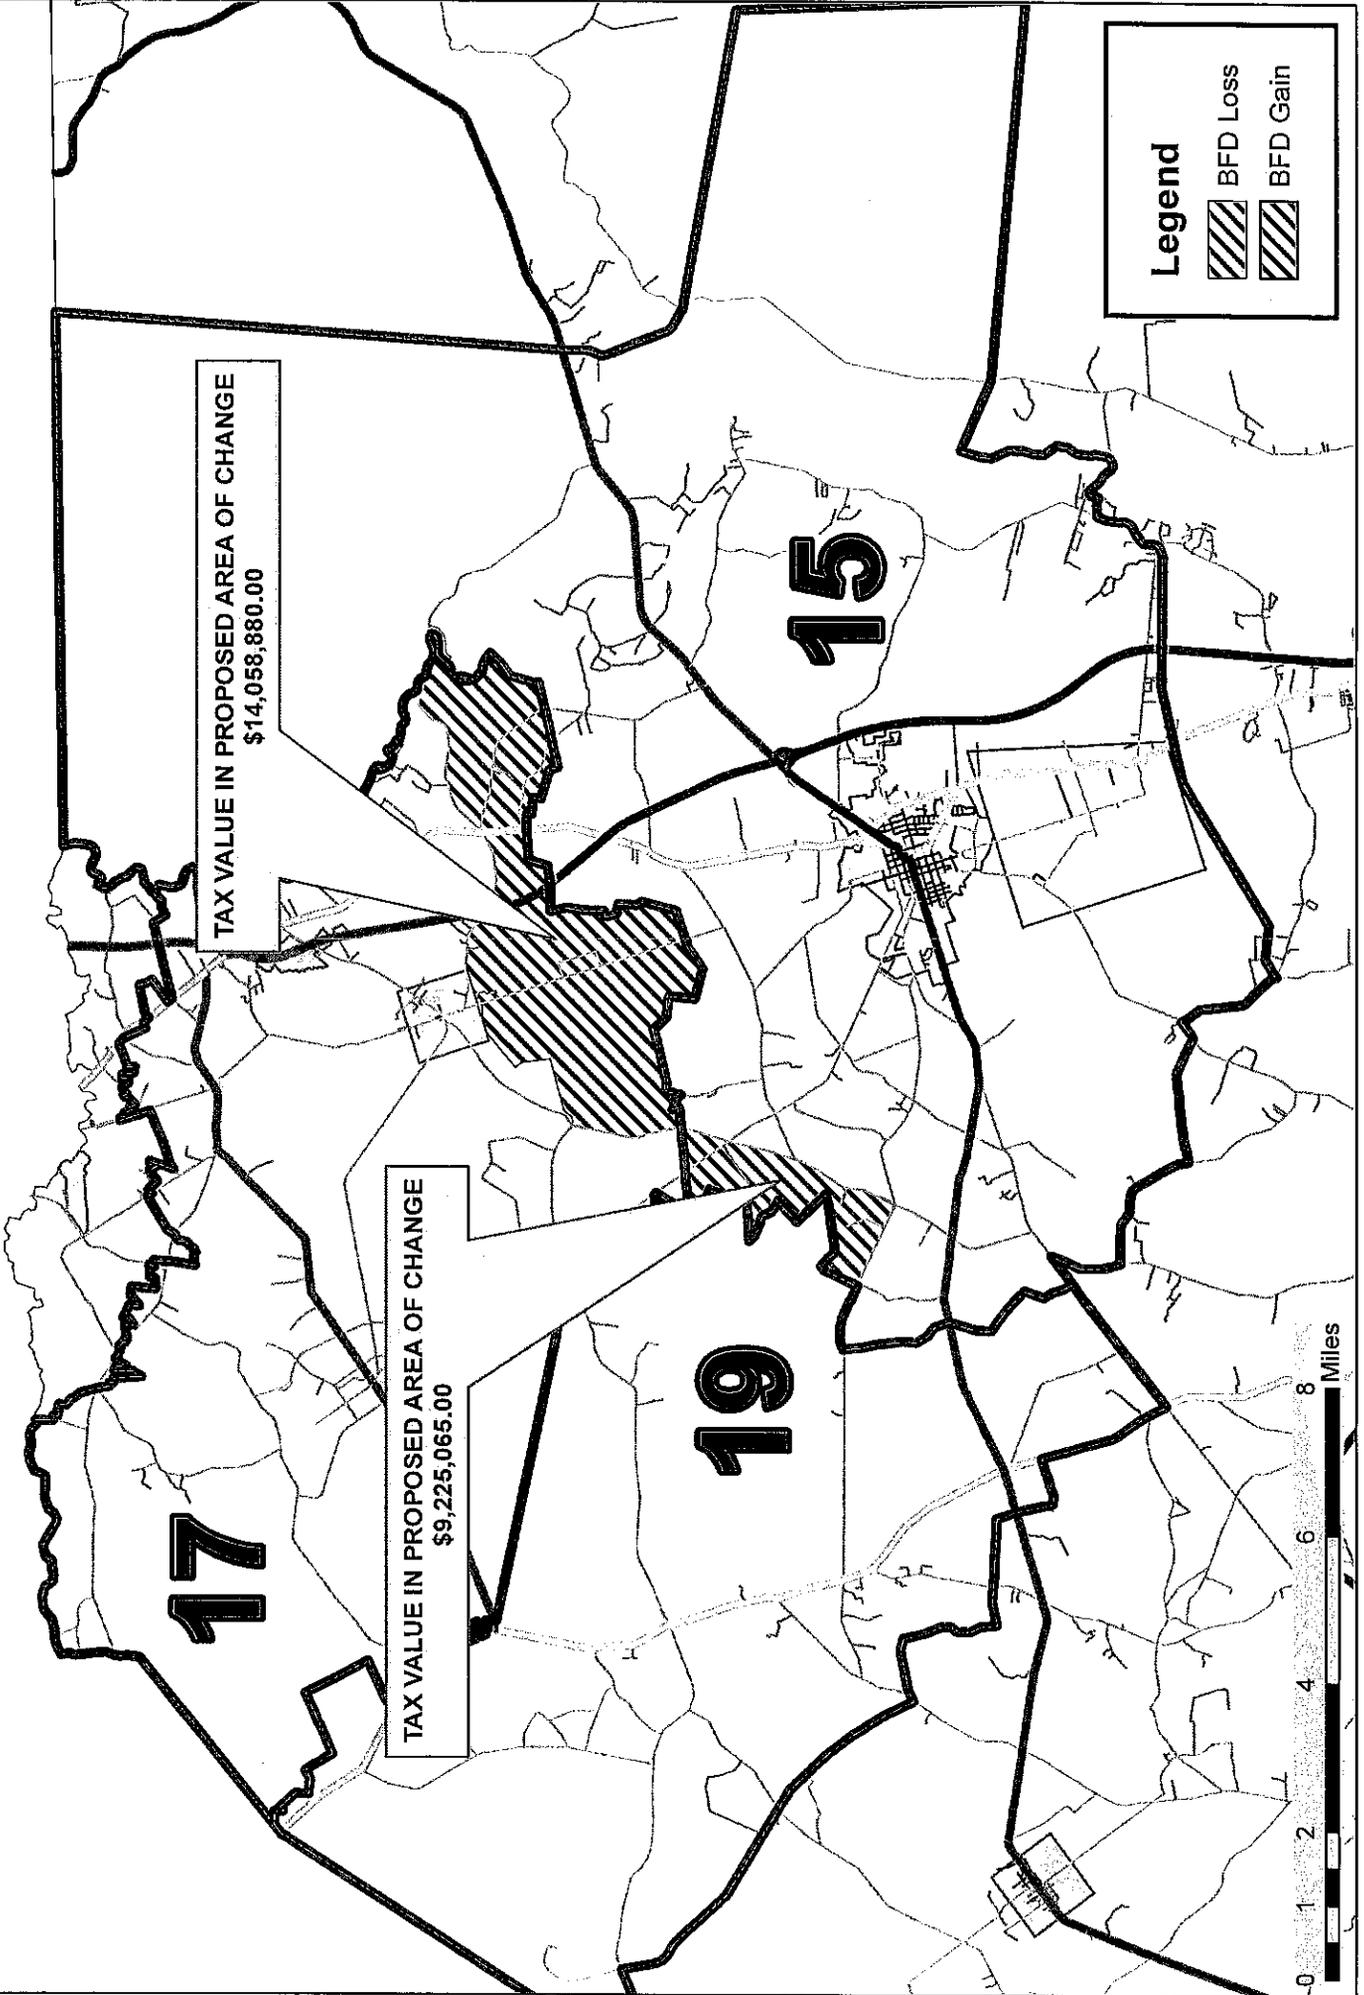

SHORT TITLE: Resolution to Amend Fire District Response Lines for the Penderlea, Shiloh, and Burgaw Fire Departments.

BACKGROUND: In the early 90's, Pender County approved going to center line fire districts to determine where fire districts would meet. Center line districts mean one fire department covers one side of the road another fire department covers the other side of the road. With center line districts it causes residence to have different ISO ratings depending on which side of the road you live on.

Approving changing Fire District lines for these three departments will bring property owners across from each other into the same ISO rating, while lowering insurance cost for some residence.

SPECIFIC ACTION REQUESTED: The Pender County Board of Commissioners to adopt a resolution approving changing the fire district / response lines from centerline districts to address points for the Penderlea, Burgaw, and Shiloh-Columbia Fire Departments

BURGAW FIRE DEPT PROPOSED DISTRICT CHANGES
