

REQUEST FOR BOARD ACTION

ITEM NO. 6

DATE OF MEETING: June 20, 2016

REQUESTED BY: Charles R. Collins, Emergency Management Director

SHORT TITLE: Approval of a Purchase Order to Intermedix (WebEOC): \$16,000.00.

BACKGROUND: Currently Emergency Services are using a computer system that is in the process of going out of business and has shut their server down as of June 1, 2016, that we use for the C3 Application for managing events that occur in Pender County. Pender County Emergency Management has evaluated several programs that would be suited for all agencies that respond to and recover from an event that requires a tracking resources, information about the event, and providing documentation to State and Federal Agencies. The program recommended is called WebEOC. This is a web based program that does not have to be loaded on all of our computers and maintained. Intermedix in the End User License Agreement will provide all technical support and we will have 50 users and 2 Admin. Users. This system is being used by all of our surrounding counties and by the State of NC and FEMA. Which make this a very viable system for us.

Funds for this expenditure are budgeted in Emergency Management – Contract Services 525-404500, FY-15-16 Budget. The money came from the Emergency Management Performance Grant. The County will be invoiced by Intermedix.

SPECIFIC ACTION REQUESTED: The Board of Commissioners is requested to consider approving a purchase order in the amount of \$16,000.00 to Intermedix for the first year of a three year contract.
