Re: Private Street & Street Drainage Construction Plans for (Name and Section of Subdivision)

This will provide certification that the construction plans, prepared by me or under my supervision for streets and street drainage in the above referenced development comply with the following requirements:

1. The plans comply with the requirements for submission to the North Carolina Department of Transportation (NCDOT) for approval of construction plans for secondary roads.
2. The plans for construction of the streets and access comply with Minimum Design and Construction Criteria for Subdivision Roads, contained in the NCDOT Subdivision Roads Minimum Construction Standards.
3. The plans provide for street drainage in compliance with the NCDOT Subdivision Roads Minimum Construction Standards and NCDOT Guidelines for Drainage Studies and Hydraulic Design.
4. The street and street drainage construction plans meet the requirements of the Pender County Unified Development Ordinance.

This certification is provided this _____ day of _____, 20 _____, to comply with the provisions of The Pender County Unified Development Ordinance.
