

SPECIAL WASTES

The following materials are also accepted at the specified convenience sites listed below. Refer to the back of this brochure for site addresses. Household items and construction debris heavier than 200 lbs. may be taken to the Transfer Station for a disposal fee based on weight. The Transfer Station also offers free recycling of appliances and empty refrigerators and up to 5 tires per day per household.

YARD WASTE

State law prohibits the disposal of yard waste and vegetative debris in sanitary landfills. Consider backyard composting or contract with a private hauler.

RECYCLING IN PENDER COUNTY IS EASY!

Designed for residents of Pender county, this brochure is an easy reference guide on the County's Solid Waste services. Learning how to properly prepare your recyclables and dispose of other special wastes will ensure efficient convenience site collection!

Always be sure to display your solid waste sticker or you will not be permitted to use the facilities. Solid waste stickers are only issued to Pender County residents living in the unincorporated areas of the county. County residents who live in the incorporated areas of the county must use their respective towns' municipal solid waste services for proper waste disposal.

All commercial non-recyclable waste may be taken to the Hampstead Transfer Station for disposal. All commercial recyclables must be recycled through a commercial recycling contract with a private hauler and cannot be taken to the Convenience Sites or the Hampstead Transfer Station.
