PERMIT # _____

Approved by: _____

REQUEST FOR “TEMPORARY POWER” ELECTRICAL SERVICE AGREEMENT

DEVELOPER/BUILDER/GENERAL CONTRACTOR NAME _____

would like to request Temporary Power. I understand that under **Section 10.8.4** of the NEC, I shall submit an application for temporary power. The application shall be made by and in the name of the applicant. As the applicant, I shall explicitly state the portions of the energized electrical system, mechanical system or plumbing system for which application is made, its intended use and duration. As the Property Owner/ Developer / Builder / General Contractor, I have reviewed the requirements under **NEC Section 10.8.2 Provisions for Temporary Power** and fully understand that the Electrical Code Enforcement Official shall give permission and issue a permit to energize the electrical service when the provisions of 10.8 and the following requirements have been met:

- 1) The service wiring and equipment, including the meter socket enclosure, shall be installed, the service wiring terminated, and the equipment covers installed.
- 2) The portions of the electrical system that are to be energized shall be completed and physically protected.
- 3) The grounding electrode system shall be complete.
- 4) The grounding and the grounded conductors shall be terminated in the service equipment.
- 5) At least one receptacle outlet with ground fault circuit interrupter protection for personnel shall be installed with the circuit wiring terminated.
- 6) The applicable requirements of the North Carolina Electrical Code apply.

In no case shall any portion of the permanent wiring be energized until the portions have been inspected and approved by an Electrical Code Enforcement Official. Failure to comply with this section may result in disconnection of power or revocation of permit. As the applicant, I shall maintain the energized electrical system or that portion of the building containing the energized electrical system in a secured and locked manner or under constant supervision to exclude unauthorized personnel. As the applicant, I shall alert personnel working in the vicinity of the energized electrical system to its presence. Under **North Carolina General Statute 153A-363**, I understand that no new building or part thereof may be occupied, no addition or enlargement of an existing building may be occupied, and no existing building that has been altered or removed may be occupied until a Certificate of Compliance has been issued. A temporary Certificate of Compliance may be issued permitting occupancy for a stated period of specified portions of the building that the inspector finds may safely be occupied before completion of the entire building. Violation of this section constitutes a Class 1 misdemeanor. The Electrical Code Enforcement Official shall have the authority to disconnect a utility service when a building has been occupied prior to Certificate of Compliance under **Section 10.7.2 of the NEC** if violations of the above referenced conditions are found.

NOTE: An Electrical TEMPORARY POWER application must be signed by the Property Owner, Developer / Builder / General Contractor, Electrical Contractor, Mechanical Contractor and the Plumbing Contractor.

I FULLY UNDERSTAND AND ACCEPT THE CONDITIONS AND TERMS OF THIS AGREEMENT:
