

COVID-19 Vaccinations: Your best shot at stopping COVID-19.

YOU HAVE A
SPOT. TAKE YOUR
SHOT.

You have a spot, take your shot. A tested, safe and effective vaccine will be available to all who want it, but supplies will be limited at first. To save lives and slow the spread of COVID-19, independent state and federal public health advisory committees recommend first protecting health care workers, people who are at the highest risk of being hospitalized or dying, and those at high risk of exposure to COVID-19. Keep practicing the 3 Ws—wear a mask, wait six feet apart, wash your hands—until everyone has a chance to get vaccinated.

1 Health Care Workers and Long-term Care Staff and Residents

ACTIVE GROUP

2 Older Adults

ACTIVE GROUP

3 Frontline Essential Workers

4 Adults at High Risk for Exposure and Increased Risk of Severe Illness

5 Everyone

Our goal is to vaccinate as many people as quickly as possible given the limited supply of vaccines. North Carolina moves through vaccination groups by aligning to federal priorities while empowering local health departments and hospitals with flexibility to move to the next priority group as they complete groups and have vaccines available.
