

Is Your Drinking Water Well Eligible for Sampling?

Chemours has begun a drinking water well sampling program in New Hanover, Brunswick, Columbus and Pender Counties, in accordance with the Interim Four Counties Sampling and Drinking Water Plan, submitted to North Carolina Department of Environmental Quality (NCDEQ; <https://deq.nc.gov/>) in April 2022. Your private drinking water well may be eligible for sampling under this program.

Please Call: 910-678-1100

A team member will call you back within two business days to set up a testing time.

Overview of the Steps in the Testing Process

Step 1
IDENTIFY
Locations to
Test

Step 2
CONTACT
Occupants

Step 3
TEST
Drinking
Water Wells

Step 4
INFORM
Occupants
of Results

Please Help Us Get the Word Out

If you know someone who has a private drinking water well, please ask them to call 910-678-1100 to see if they are eligible for sampling.

Thank you for your patience as we work through the steps to identify houses and businesses for testing.
